

# Air Purifier "LR 80 WIFI+"

## with HEPA filter H14

- Filters 99.995% of viruses, bacteria, aerosols, allergens and odours from indoor air
- Equipped with an H14 HEPA filter with self-sterilising effect
- Mobile and lightweight – easy to move with only 14 kg and castors
- Suitable for rooms up to 96 m<sup>2</sup>
- Purifies up to 800 m<sup>3</sup> of air per hour
- Smart home compatible
- Simple and flexible operation via modern touch display, app, and remote control
- Coloured LED strip visually indicates the current air quality level
- Adjustable performance modes for flexible use
- Filter replacement reminder shown on the display
- Noise emission between 20 dB and 66 dB, depending on the selected power level
- Quick and easy set-up and filter replacement – no specialist personnel required

### Technical Data

Colour	Light grey
Dimensions (L x W x H)	400 x 400 x 669 mm
Separation efficiency	99,995%
Filter class	HEPA filter H14
Filter stages	5
Filter replacement interval	6 months
Airflow volume	800 m <sup>3</sup> /h
Noise emission	20 dB - 66 dB
Power consumption	85 W
Voltage	230 V
Weight	14,0 kg

### High Performance with 5-stage Filtration

- 1. Aluminium Filter** (washable) - captures the first coarse dirt particles
- 2. Ionisation Filter** (20 million ions/m<sup>3</sup>) - filters additional coarse particles from the air
- 3. Antibacterial Filter** - removes ultrafine particles such as fine dust
- 4. Honeycomb Activated Carbon Filter** - eliminates gases and odours
- 5. HEPA Filter H14** - filters particles as small as 2.5 micrometres (PM2.5); the self-sterilising effect protects the filter and prevents build-up
