

Dimensions:	DIN A1, A0, 700 x 1000 mm
Top Profile:	44 mm Aluminium
Rear Profile:	New Profile, longer and deeper
Corners:	Top 2 corners soft square mitred
Protection Cover:	PET 1 mm UV resistant and antireflex Applied in frame with 2 screws
Backing:	5 mm white fluted PP
Waterwick/Gasket:	with Waterwick/gasket directly in the channel of profile and drainage holes
Springs:	Steel
Non-Slip Poster Tape:	with Poster tape for re-use around 100 times
Waterbase Colour:	Grey-RAL 9006 & Black-RAL 9005
Waterbase Material:	HDPE
Wheels:	2 wheels

Our WindSign "Seal" is designed for outdoor use. It is equipped with a fillable plastic base and can thus be used in highly frequented areas, such as pedestrian zones or on footpaths, to save space.

The uniform, high-quality appearance is ensured by the click frames available in black or silver. The folding technique of the frames guarantees a quick change of the posters. To change contents, simply open the 4 frame profiles of the pavement sign. The protective cover is removed and the poster underneath is replaced. After replacement, the profiles of the click frame are simply folded back. The poster change is already done. A circumferential sealing rubber mounted on the rear walls prevents water from entering. The rear walls are also made of weather-resistant polystyrene. The anti-reflective covers made of UV-stabilised material prevent the posters from fading. Furthermore, the anti-reflection coating of the covers - even in sunlight - ensures that the inserts are much easier to read.

The installation of the customer stopper is very easy. The frame is simply screwed to the plastic base and the stand is ready for use.

The high stability of the Wind Sign is guaranteed by the fillable base and the special spring technology, so that the stand can also be used in stormy weather, for example in coastal areas. Thanks to the wheels integrated in the base, the WindSign "Seal" can be moved easily to the desired position, and it can also be easily pushed back into the sales room after closing time.
